

# Appendix C.

## Requested Adjustments – 13.6

Can you please jiggle it around so that the names of the council from May 2017 appear on the same page as the future events. In my opinion it is very important that the new Council information is not on the same page as the previous budget figures. Also Can you insert : From May 2017 after Bembridge parish council that gives new council names. If there was no other way of ensuring this, then I could accept having Green town etc on the budget page of old council but this would be a last resort.

Councillors: alphabetical please
