

One of our partners has sent us the screen shots below of a text that he received allegedly from the Government.

Some of you may have had a genuine text from UK Gov warning you to stay at home and stay safe – do not confuse that with the messages below. This is a SCAM and shows how sophisticated the scammers are. There is NO coronavirus payment from the Government – if you click on the link and put in your bank details you will most definitely have money taken from your account or worse.

Delete this text straight away – IT IS A SCAM

NEVER click on links in texts and NEVER give out your bank details
