Competition time

Family Maths Challenge

Take part in our fun maths challenge this summer. We've got prizes of £50 supermarket vouchers or £50 Wight Gift Cards to give away.

How to enter:

Answer the five questions below and go to our Save on Summer web page (iow.gov.uk/saveonsummer) or scan the QRCode opposite to enter the competition. We'll need your answers and contact details. You'll find terms and conditions and our privacy policy on the website.

Question one

Tom buys five ice creams for £8. How much would 12 ice creams cost?

Question two

Over the summer holidays, five friends decide that they will all visit each others' houses once. How many visits are made altogether during the summer?

Question three

Find three consecutive numbers that add up to 66?

Question four

My friend and I collected some shells on the beach. Altogether, we had 56 shells. My friend had 14 more shells than me. How many shells did we each collect?

Question five

The coastal path that goes all the way around the perimeter of the Isle of Wight, is approximately 112km long. The average walking speed of a person is about 5km/h. Using these measurements, how long would it take to walk all the way around the Island? Give your answer in hours and minutes.

Closing date 11.59pm on 21 August 2023. Winners will be notified by email.
